One Lap For Dogs is competing again! Help us cover the traditional red "dog bone" car with white bones for the second year in a row! Last year, we raised over \$5,000 for the SPCA. This year, we're continuing our passion by supporting Canine Partners for Life. We can beat the \$5,000 with your help! **Your \$20 contribution** will place your customized dog bone on the race car for the event and a magnetic bone for your car. Proceeds go directly to Canine Partners for Life. Our Team will seek matching donations from businesses in the area to maximize your contribution. The One Lap For Dogs Team will be competing in the 2011 One Lap of America.

Canine Partners For Life (CPL) trains and places assistance dogs with individuals with mobility impairments to help increase their independence and quality of life. CPL has several types of assistance dogs in its program including service dogs, seizure alert dogs, home companions and residential (community) companions. Our recipients come from all walks of life and have a wide variety of physical disabilities including muscular dystrophy, multiple sclerosis, cerebral palsy, spinal cord injuries, seizure disorders and more. The one thing they all have in common is a drive to become more independent and a commitment to do what is necessary to have an assistance dog in their life. CPL is a 501(c)(3) and your contribution can be tax deductible. www.K94life.org
